Grand Chief Derek Nêpinak
RE: SUPPORT TO ESTABLISH PARTNERSHIPS FOR THE DEVELOPMENT OF A FIRST NATIONS EPIDEMIOLOGY CENTRE (FIRST NATIONS EPI-CENTRE)

WHEREAS, The Assembly of Manitoba Chiefs (AMC) and Manitoba First Nations Health and Wellness Strategy identified several Key Action Areas, including Key Action Area 14: the Pursuit of Health Information and Research as a priority for Manitoba First Nations;

WHEREAS, Key Action Area 14 emphasised how critical it was for First Nations to build the infrastructure to collect, analyze, translate and disseminate the information for First Nations, and called for the establishment of a Manitoba First Nations Health Research Centre and Statistical Network if we are to make any positive improvements in our state of health;

WHEREAS, the AMC and Manitoba First Nations align their vision for improved health for all in the First Nations Health Renewal Strategy, recognizing the role that health information, knowledge and research has in health care system renewal by influencing/changing government policy, assessing the effectiveness of policies and services, programs, public health interventions or to accessing much needed funding;

WHEREAS, the AMC has taken the initial steps in working through toward this vision through resolution May-08.02 to house the Manitoba Regional Health Survey and provided the mandate to the Manitoba First Nations Health Information Research Governance Committee (HIRGC);

WHEREAS, the AMC has increasingly been sought to participate, conduct, guide or collaborate in health research by direct involvement of skilled and trained AMC staff, or through the application process to HIRGC, who report to the Chiefs Task Force on Health (CTFoH);

WHEREAS, the International Centre for Infectious Disease and University of Winnipeg have approached the AMC to initiate discussions on the establishment of a Manitoba First Nations epidemiology research centre (Epi-Centre), which would be independent from academia and governments enabling First Nations independent research and studies with the focus on public health and prevention; and
WHEREAS, a Manitoba First Nations Epi-Centre would be: entirely First Nations controlled; built upon First Nations principles of free, prior and informed consent on an individual and collective basis; based on the principles of First Nations Ownership, Control, Access and Possession of their own data; and First Nations ethical standard. The main priority of the Manitoba First Nations Epi-Centre would be to: implement and improve the quality and accuracy of First Nations Health Data; utilize data to support policy change/improvement for better First Nations health outcomes; assist communities in identifying health priorities for First Nations; and implementing disease surveillance systems.

THEREFORE BE IT RESOLVED, that the Chiefs-in-Assembly direct the AMC to engage and dialogue with key individuals and organizations with the goal of establishing the necessary partnerships to collaborate with the International Centre for Infectious Disease and the University of Winnipeg, and to continue discussions to further the work toward the establishment of the First Nations Epidemiology Centre.

FURTHER BE IT RESOLVED, the Chiefs-in-Assembly mandate the CTFoH to provide guidance to the development of the partnerships and ensure that the First Nations principles in the AMC Constitution are upheld, and the Epi-Centre framework incorporates a holistic approach, is accountable to First Nations, and recognizes the contribution of knowledge/science and wisdom of our Elders and Traditional Healers.
RE: TARGET DATE FOR ENDING INEQUALITY FOR FIRST NATIONS CHILDREN AND YOUTH

WHEREAS, children and youth are sacred and valued citizens of First Nations and represent the perpetuity of First Nations cultures, languages and ways of life;

WHEREAS, non-discrimination and respect for cultures and languages are shared principles of the United Nations Declaration on the Rights of Indigenous Peoples (UNDRIP), the UN Convention on the Rights of the Child and the UN Convention on the Elimination of All Forms of Racial Discrimination;

WHEREAS, the Prime Minister committed to reconciliation in the Apology for Residential Schools and at the Crown-First Nations Gathering in January of 2012;

WHEREAS, the federal government has set the year 2015 as its target date to eliminate its deficit and move into a projected revenue situation – representing a difference of $24.4 billion over three years (Economic Action Plan 2012, March 29, 2012), but continues to fail to address longstanding funding inequities in areas critical to child and youth development and well-being, such as: education – 20 to 30% less than provincial levels – and child welfare and social assistance – 20 to 25% less than provincial levels. (Auditor General Report, 2008; Winnipeg Free Press, February 4, 2012); and

WHEREAS, these inequities contribute to First Nations children and youth being over-represented in the child welfare system, and poor educational and health outcomes, putting at risk their ability to reach their full potential and contribute to our communities and broader society.

THEREFORE BE IT RESOLVED, that the AMC Chiefs-in-Assembly call on the Prime Minister of Canada to set a target date no later than 2015 to end the inequalities experienced by First Nations children and young people; and that the Prime Minister be required to report annually to the public on progress to meet the end of inequity target date; and
RE: TARGET DATE FOR ENDING INEQUALITY FOR FIRST NATIONS CHILDREN AND YOUTH (cont’d)

FURTHER BE IT RESOLVED, that irrespective of the will of the Government, First Nations set 2015 as a target date to eradicate the deficit in equality for First Nations children and report publically on the government’s progress in achieving the target date.
