

Fraction Sticks

1) Write a yes/no question.

2) Ask 10 people the question.

3) Record the responses in a tally.

4) Color in the fraction stick (1 tally = 1 square).

5) Write 3 fraction statements about your fraction stick.

6) Convert your 3 fractions into decimals and percents.

fraction	decimal	percent
1.		
2.		
3.		

A vertical fraction stick consisting of 10 empty squares stacked on top of each other, used for recording responses.
