

Teacher Feedback Report: Please be descriptive in your explanations.

Strengths: (What are you most proud of? What would you share with others?)

I am proud of the Math and ELA Portfolios I use to Collect Evidence of Learning. I find them very useful during Parent Teacher Interviews. The students received good feedback by sharing their Portfolios with their parents and fellow classmates.

Challenges: (What are your concerns? What supports/resources do you require?)

My biggest concern is how I will collect evidence for the Gr. 3 Assessment. It would be helpful to view examples of what other teachers are collecting for evidence.

Next Steps: (Where are you going? How will you get there?)

I am going to be reporting this year on the Gr. 3 Provincial Assessment and I am planning on using the Data from the assessment to help plan my year in Math and ELA. The data will be useful in grouping my students. The data results will take me there.
