

**Sagkeeng Education Regional Conference March 26, 2015**

# **"Mino-Pimatziwin: Promoting positive school health practices and First Nation perspectives"**

Sagkeeng Education is proud to be hosting this year's Mini Regional conference in partnership with MFNERC to be held at the Sagkeeng Junior High School March 26, 2015. In Sagkeeng we are committed to providing a quality education where all students are encouraged to achieve personal success and Mino-Pimatziwin. We believe in embracing our Anicinabe language and culture, enriching community involvement, respecting diversity, and providing a safe, positive learning environment. We believe we need to take a resiliency based approach which builds upon the strengths and nurtures the gifts of our children and staff. There is also a need for a shift in practice to promote a positive school health approach to foster wellness, resiliency, and development of our children and staff to achieve Mino-Pimatziwin.

Using the Medicine Wheel and the Comprehensive School Health Framework as a guide to promote health and wellness, this regional will focus on social and physical environments, teaching and learning, partnerships and services, and healthy school policy.
